

### THE LOOK AND FEEL of real wood

NewTechWood uses select, recycled, high-density plastics, combined with recycled wood products, to create a composite wood substitute that drops your energy footprint to zero. NewTechWood is made from recycled materials, and it's 100% recyclable down the line.

When you want the look of real wood, but you don't want the headaches of maintaining that beautiful façade, NewTechWood solves the problem.

NewTechWood with **Naturale** lasts longer, requires less maintenance, and it puts recycled materials to good use creating the natural look of wood without all the work.

- Wood is expensive and requires on-going, costly maintenance.
- The family deck has to be stained and water-proofed with toxic chemicals.
- The wooden siding needs an expensive paint job every few years.
- Wooden fencing requires constant repair, and time-consuming paint jobs to keep up appearances.
- Real wood accents add to the cost of any home improvement or new construction.
- You have less time to enjoy your family and your home because your exterior wood always needs something.
- The planet suffers as more wood is harvested to meet the ever-growing demand for natural-looking wood.

## NEWTECHWOOD the Smart Green Choice

All NewTechWood products are produced using 95% recycled materials including plastic bottles, reclaimed wood fibers, and other products that would normally end up in a landfill.

NewTechWood undertakes annual, third-party audits to assure compliance with environmental, health, and safety regulations and guidelines – a demonstration of our commitment to a greener alternative to wood building products that deplete the planet's resources.

NewTechWood shrinks your home's carbon footprint by using recycled materials constructed to be recycled again in the future. NewTechWood conserves home energy use.

LEED & EPD Certifications

#### New Tech Wood's UltraShield:

## THE LOOK OF WOOD WITHOUT THE WORRY

Using its patent-pending process, called **Naturale** UltraShield delivers convenience, reliability, and a realistic texture that, not only makes your life better, all NewTechWood products combine the proven strength of high-density, recycled plastic with realistic wood fibers to deliver the look of **UltraShield** wood; the look you demand.

#### **UltraShield: Ultra-simple**

**UltraShield** is enclosed in an impermeable seal so your **UltraShield** deck or home siding stands up to weather, sun, water, scuffs and scrapes. Your home looks good down the line because, with **UltraShield**, durability is built in.

## The UltraShield COMPREHENSIVE WARRANTY

It's really simple. Our **UltraShield** line of products is backed by the most comprehensive warranty in the industry.

NewTechWood stands behind its products, backed by a 25-year limited, transferable warranty. We are so confident in the quality of our materials that we'll refund the cost or replace the products if they underperform.

That's really simple, so you have nothing to lose.

## UltraShield Naturale FROM SUBTLE TO SPECTACULAR: It's Your Choice

From subtle hues to eye-catching accents, **UltraShield**'s **Naturale** collection of colors and surface patterns delivers a palette of design options to create the customized look of **Naturale** wood that's perfect just for you.

Choose your look, assured of consistency of appearance from NewTechWood's **UltraShield** collection, perfect for decking, siding, porches, and even fencing that washes clean when the work is done.

Durable, easy-to-install, low-maintenance solutions to all of your outdoor construction needs.

From Subtle to Spectacular: With NewTechWood's **UltraShield** collection, there are no limits to your imagination.

## UltraShield Naturale TIMELESS ELEGANCE

### 24 UNIQUE

## **COLORS**

## The stunning Beauty of New Tech Wood ADDS VALUE TO YOUR HOME

Pool decking, design accents, innovative outdoor builds, using materials of unparalleled quality, adds eye appeal to any home – the look that delivers long-term benefits, and a nice return on your home investment.

Add value and clean, good looks to any home with **UltraShield**.

From NewTechWood to your backyard.

## Elegant HOME SIDING That last

Our home siding looks like natural wood, without the worries of real wood exposed to the elements. NewTechWood cladding installs quickly using our exclusive clip system that creates a lasting seal between planks.

Our installation system enables your home to "breathe" as air circulates between siding and joists, keeping your home high, dry, and energy efficient.

Why settle for aluminum or vinyl siding that looks fake, when you can have the same ease of installation and durability that stands up to any weather conditions with the natural look of wood.
